

# STARTUP GENE LABSHOUR

# ABOUT COMPANY

Secure Worldz is a cybersecurity focused company dedicated to building skilled defenders for the digital world. We specialize in hands on training, real world security research, and practical learning that bridges the gap between theory and industry needs. Our mission is to empower students and professionals with the knowledge, tools, and mindset required to protect systems, networks, and data in an ever evolving cyber landscape.

## DISCOVER OUR EDGE

Industry driven learning combined with real world startup execution. Startup Gene Labs focuses on venture creation, validation, and scaling through real startup frameworks, live business simulations, and expert mentorship ensuring learners don't just study startups, they build scalable ventures.

### INDUSTRY READY CURRICULUM

Designed around real world startup ecosystems, funding models, growth strategies, and industry standard venture practices aligned with modern entrepreneurial demands.

### HANDS-ON PRACTICAL LEARNING

Learn through live startup simulations, idea validation exercises, MVP building scenarios, and scaling strategy workshops.

### EXPERT MENTORSHIP & GUIDANCE

Gain insights from experienced founders, startup advisors, and business leaders with real entrepreneurial exposure.

### CAREER-FOCUSED SKILL BUILDING

Develop job ready entrepreneurial skills, leadership ability, risk assessment, and a strong founder mindset.

# WHO WE ARE

SecureWorldz is a cybersecurity learning platform focused on practical skills, real world training, and industry ready expertise.

# WHAT MAKES US DIFFERENT

Real startup execution focus, founder led learning, and venture scale thinking set Startup Gene Labs apart from theory based entrepreneurship programs.

# WHY STARTUP GENE LABS
